MyMathLab eCourse for Trigsted/Bodden/Gallaher Developmental Math: Basic Math, Beg & Interm Alg--Access Card--PLUS Ntbk (All in One Solutions) Kirk Trigsted, Kevin Bodden, Randall Gallaher

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

Developmental Mathematics by Trigsted, Gallaher, and Bodden is the first online, completely “clickable” combined Basic Mathematics, Beginning Algebra, and Intermediate Algebra text to take full advantage of MyMathLab’s® features and benefits. Kirk Trigsted saw marked improvements in student learning when he started teaching with MyMathLab, but he noticed that most students started their assignments by going directly to the MyMathLab homework exercises without consulting their textbook. This inspired Kirk to write a true eText, built within MyMathLab, to create a dynamic, seamless learning experience that would better meet the needs and expectations of his students. Completely clickable and fully integrated—the Trigsted eText is designed for today’s learners.

Developmental Mathematics is also available to be packaged with two printed resources to provide additional support for you:

- The **eText Reference** is a spiral-bound, printed version of the eText that provides a place for you to do practice work and summarize key concepts from the online videos and animations. In addition to the benefits it provides you, the eText Reference is also a nice resource for those instructors that prefer a printed text for class preparation.
- The **Guided Notebook** is an interactive workbook that guides you through the course by asking you to write down key definitions and work through important examples for each section of the eText. This resource is available in a three-hole-punched, unbound format to provide the foundation for a personalized course notebook. You can integrate your class notes and homework notes within the appropriate section of

the Guided Notebook. Instructors can customize the Guided Notebook files found within MyMathLab.

This package contains the MyMathLab Student Access Kit plus the Guided Notebook.

0321954068 / 9780321954060 MyMathLab Developmental Mathematics: Basic Mathematics, Beginning Algebra, Intermediate Algebra -- Access Card -- PLUS Guided Notebook

Package consists of

032195307X / 9780321953070 MyMathLab for Developmental Mathematics: Basic Mathematics, Beginning Algebra, Intermediate Algebra -- Access Card

0321953185 / 9780321953186 Guided Notebook for Developmental Mathematics: Basic Mathematics, Beginning Algebra, and Intermediate Algebra
