Praise for *Integrating Expressive Arts and Play Therapy With Children and Adolescents*

"With this book, Drs. Green and Drewes have filled an important void in the play therapy literature, namely the integration of the expressive arts in play therapy with children and adolescents. They have assembled the best theorists and practitioners of the expressive arts and given them an appropriate structure to write their chapters. The book is outstanding and provides readers with in-depth case studies, detailed methodologies, research findings and is a useful resource for further training options. I recommend this book most highly for trainers, practitioners, and graduate students."

—John Allan, PhD, Professor Emeritus of Counseling Psychology, University of British Columbia, author, *Inscapes of the Child's World*

"Brimming with chapters by 'oracles' from various disciplines, Green and Drewes' guidebook articulates essential competencies for the cross-disciplinary practice of play therapy and expressive arts therapies. Practical and timely, responsible and readable, it is an important resource for the mental health community and students who seek to work creatively with children. A significant contribution toward bringing professionals and professions together to learn from one another."

—Barry M. Cohen, MA, ATR-BC, founder, Expressive Therapies Summit, cofounder, Mid-Atlantic Play Therapy Training Institute

## Interventions and approaches from the expressive arts and play therapy disciplines
