Making Rocky Mountain National Park: The Environmental History of an American Treasure Jerry J. Frank

On September 4, 1915, hundreds of people gathered in Estes Park, Colorado, to celebrate the creation of Rocky Mountain National Park. This new nature preserve held the promise of peace, solitude, and rapture that many city dwellers craved. As Jerry Frank demonstrates, however, the park is much more than a lovely place.

Rocky Mountain National Park was a keystone in broader efforts to create the National Park Service, and its history tells us a great deal about Colorado, tourism, and ecology in the American West. To Frank, the tensions between tourism and ecology have played out across a natural stage that is anything but passive. At nearly every turn the National Park Service found itself face-to-face with an environment that was difficult to anticipate—and impossible to control.

Frank first takes readers back to the late nineteenth century, when Colorado boosters—already touting the Rocky Mountains' restorative power for lung patients—set out to attract more tourists and generate revenue for the state. He then describes how an ecological perspective came to Rocky in fits and starts, offering a new way of imagining the park that did not sit comfortably with an entrenched management paradigm devoted to visitor recreation and comfort.

Frank examines a wide range of popular activities including driving, hiking, skiing, fishing, and wildlife viewing to consider how they have impacted the park's flora and fauna, often leaving widespread transformation in their wake. He subjects the decisions of park officials to close but evenhanded scrutiny, showing how in their zeal to return the park to what they understood as its natural state, they have tinkered with its features—sometimes with less than desirable results.

Today's Rocky Mountain National Park serves both competing visions, maintaining accessible roads and vistas for the convenience of tourists while guarding its backcountry to preserve ecological values. As the park prepares to celebrate its centennial, Frank's book advances our understanding of its past while also providing an important touchstone for addressing its problems in the present and future.

The inside or content will be fantastic as the outside or maybe cover. Your reading 6th sense will directly make suggestions to pick up this book.

Irving Carlin:

In this period of time globalization it is important to someone to obtain information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, classifieds, book, and soon. You can view that now, a lot of publisher that print many kinds of book. The actual book that recommended for you is Making Rocky Mountain National Park: The Environmental History of an American Treasure this publication consist a lot of the information in the condition of this world now. This specific book was represented how does the world has grown up. The language styles that writer value to explain it is easy to understand. Often the writer made some study when he makes this book. That's why this book acceptable all of you.

Mark Morrow:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some reserve, they are complained. Just very little students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for yourself.

As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Making Rocky Mountain National Park: The Environmental History of an American Treasure can make you truly feel more interested to read.
