Asian Development Bank

Energy Efficiency Reference for Asian Use Asian Development Bank

The primary purpose of this Reference is to provide comprehensive information about the broad range of energy-efficient technologies applicable to end-use efficiency improvement. It provides useful information on practical applications of energy-efficient equipment. The Reference also attempts to analyze the energy savings possible, the materials, equipment and services required, and the costs involved in Asian circumstances. A useful introductory reference document for designers, developers and operators of energy use systems, and for energy supply utilities.
