(Kindle edition.) This book presents lesson plans for flight instructors in the form of scenario-based “maneuver briefings.” A rich resource for active instructors, these lesson plans are also helpful to CFI applicants preparing their own materials. *Lesson Plans* can also be used as a companion book for flight instructors who are following the principles taught in Arlynn McMahon’s first book on scenario-based flight training, *Train Like You Fly*. *Lesson Plans* is designed to work in complement with any syllabus and the FAA Practical Test Standards (PTS); explains how to teach each maneuver, making the flight instructor’s favorite syllabus curriculum more effective and enjoyable for flight students. Each maneuver briefing features a series of drawings instructors can discuss with their students and an accompanying script to teach from, which includes a story or motivation on the why and how the maneuver is applied in actual flight. Common errors are discussed in the form of keys to success, to positively inspire students to become sound aviation citizens. In addition to the lesson plans, the book includes templates, checklists, and student assignments to build proper flight preparation habits and help determine the student’s readiness to act as pilot-in-command.
