**Asyndeton in Paul: A Test-Critical and Statistical Enquiry into Pauline Style (Studies in the Bible and Early Christianity)** Eberhard W. Guting, David L. Mealand

This study explores the stylistic effects of asyndeton in three of Paul's major letters: "Romans" and "First" and "Second Corinthians". It analyzes the way in which these stylistic features underwent change at the hands of scribes. By carefully charting the way in which the main Pauline manuscripts have deviated from Paul's use of asyndeton, the authors build a profile of the behaviour of individual manuscripts and also of groups of texts.
