## Chemical Modulators of Protein Misfolding and Neurodegenerative Disease Pierfausto Seneci

This book is a neurochemistry-based companion for *Protein Misfolding and Neurodegenerative Diseases: Molecular Targets*, an Elsevier title by the same author publishing in December 2014. While the first book focuses on biology and molecular targets, this companion book describes how these targets are regulated by small molecules and disease-modifying compounds. The book begins with a brief introduction to how key proteins become dysfunctional, and each subsequent chapter describes major disease mechanisms in Alzheimer's and other tauopathies. Properties and development status of these molecular targets and disease mechanisms are thoroughly described, as are small molecule effectors of autophagy and dis-aggregating agents.

- Written to provide comprehensive coverage of neurodegenerative disease-modifying compounds;
- Provides discipline-specific chapters that cover medicinal chemistry and clinical applications;
- Provides an overview of more than 200 chemical classes and lead compounds, acting on selected molecular targets that are of relevance to any neurodegenerative disorder;
- Coverage of misfolding diseases, chaperone proteins, ubiquitination and autophagy/oncology makes this book suitable for structural neurochemists, chemists, biologists, non-CNS scientists, and scientists interested in drug discovery.

### **From reader reviews:**

#### **Marie Aultman:**

Have you spare time for a day? What do you do when you have much more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a move, shopping, or went to the particular Mall. How about open or even read a book allowed Chemical Modulators of Protein Misfolding and Neurodegenerative Disease? Maybe it is to be best activity for you. You know beside you can spend your time with your favorite's book, you can better than before. Do you agree with the opinion or you have some other opinion?

#### **David Manning:**

Nowadays reading books become more than want or need but also become a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want get more knowledge just go with education books but if you want experience happy read one with theme for entertaining for example comic or novel. The Chemical Modulators of Protein Misfolding and Neurodegenerative Disease is kind of guide which is giving the reader unstable experience.

#### **Rita Lattimore:**

This Chemical Modulators of Protein Misfolding and Neurodegenerative Disease are reliable for you who want to be a successful person, why. The main reason of this Chemical Modulators of Protein Misfolding and Neurodegenerative Disease can be one of many great books you must have is actually giving you more than just simple studying food but feed anyone with information that possibly will shock your before knowledge. This book is handy, you can bring it all over the place and whenever your conditions at e-book and printed types. Beside that this Chemical Modulators of Protein Misfolding and Neurodegenerative Disease giving you an enormous of experience like rich vocabulary, giving you test of critical thinking that we understand it useful in your day pastime. So , let's have it and luxuriate in reading.

#### **Ana Smith:**

It is possible to spend your free time to learn this book this guide. This Chemical Modulators of Protein Misfolding and Neurodegenerative Disease is simple to deliver you can read it in the park your car, in the beach, train in addition to soon. If you did not have got much space to bring typically the printed book, you can buy often the e-book. It is make you quicker to read it. You can save typically the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.
