Invasive Procedures

Orson Scott Card, Aaron Johnston

Invasive Procedures Orson Scott Card, Aaron Johnston

George Galen is a brilliant scientist, a pioneer in gene therapy. But Galen is dangerously insane – he has created a method to alter human DNA, not just to heal diseases, but to "improve" people – make them stronger, make them able to heal more quickly, and make them compliant to his will.

Frank Hartman is also a brilliant virologist, working for the government's ultra-secret bio-hazard agency. He has discovered how to neutralize Galen's DNA-changing virus, making him the one man who stands in the way of Galen's plan to "improve" the entire human race.

This taut thriller takes the reader a few years into the future, and shows the promise and danger of new genetic medicine techniques.
