*Assessing Neuromotor Readiness for Learning* is a substantially revised and expanded edition of a long established INPP training manual that has been consistently proven in practice. The package includes tests for children, a developmental movement programme, and information about online access to INPP video training materials.

- Based on the proven INPP model for neuromotor development screening and intervention, which is unique in having been rigorously evaluated in research and practice
- Expands and revises an INPP manual which has previously only been available to training customers, and which is a foundation stone of the overall INPP approach
- Places emphasis on children's physical development and how neuro-motor skills provide the foundations for learning success.
- The package includes batteries of tests for younger and older children, a developmental movement programme
- This book may be supported and enhanced by INPP video training materials and score sheets, available for download purchase from the INPP website
