Zonificacion ambiental para el plan modelo colombo-brasileño: (eje Apaporis-Tabatinga, PAT) (Spanish Edition)

Este documento se constituye en el informe final del proyecto de zonificación ambiental del "Plan Modelo Colombo-Brasileño Tabatinga-Apaporis" (área colombiana en los departamentos de Amazonas y Vaupés). El proyecto se desarrollo en el marco de los principios y objetivos del tratado de cooperación amazónica, suscrito por Brasil, Bolivia, Colombia, Ecuador, Guyana, Perú, Suriname y Venezuela el 3 de julio de 1978. En el tratado, las diferentes partes se comprometieron a realizar esfuerzos y acciones conjuntas para promover el desarrollo armónico de sus respectivos territorios amazónicos, de manera que estas acciones produzcan resultados equitativos y mutuamente provechosos, así como la conservación de los recursos naturales de sus territorios. La zonificación ambiental del eje, también se fundamento en el acuerdo específico de cooperación amazónica celebrado entre Brasil y Colombia suscrito en 1981. A partir de este acuerdo se desarrollo la primera reunión de la comisión mixta del acuerdo e cooperación amazónica colombo-brasileño, realizada en Leticia en 1987, allí se plantearon los diferentes objetivos y estrategias globales del Plan Modelo Colombo-Brasileño para el desarrollo integrado de las comunidades vecinas del Eje Tabatinga-Apaporis.
