With more than fifteen years of experience in conducting market research, Beall details the strategic principles she has developed that impact the way in which market research can inspire and change an organization. Strategic Market Research discusses identifying the strategic questions that will help a business; using the right research techniques to answer these questions; obtaining the level of depth required to have insight; reading the nonverbal communications of research respondents when doing qualitative work; identifying the emotional aspects of human behavior; using statistical analyses to understand what drives markets; going beyond the data to interpret the results and make strategic recommendations.
