Forty years have passed since the so-called women's movement claimed to liberate women from preconceived notions of what it means to be female - and the results are in. The latest statistics show that as women have gained more freedom, more education, and more power, they have become less happy. In *The Flipside of Feminism*, Suzanne Venker and Phyllis Schlafly provide readers with a new view of women in America - casting off the ideology that preaches faux empowerment and liberation from men and marriage. Their book demonstrates that conservative women are, in fact, the most liberated women in America and the folks to whom young people should be turning for advice. Their confident and rational approach to the battle of the sexes is precisely what America needs.
