PHPUnit Pocket Guide Sebastian Bergmann

Smart web developers will tell you that the sooner you detect your code mistakes, the quicker you can fix them, and the less the project will cost in the long run. Well, the most efficient way to detect your mistakes in PHP is with PHPUnit, an open source framework that automates unit testing by running a battery of tests as you go. The benefits of PHPUnit are significant:

- a reduction in the effort required to frequently test code
- fewer overall defects
- added confidence in your code
- improved relations with your open source teammates

The only problem with this popular testing tool was its lack of documentation-until now, that is. For this, O'Reilly went right to the source, as Sebastian Bergmann, the author of *PHPUnit Pocket Guide*, also happens to be PHPUnit's creator. This little book brings together hard-to-remember information, syntax, and rules for working with PHPUnit. It also delivers the insight and sage advice that can only come from the technology's creator. Coverage of testing under agile methodologies and Extreme Programming (XP) is also included.

The latest in O'Reilly's series of handy *Pocket Guides*, this quick-reference book puts all the answers are right at your fingertips. It's an invaluable companion for anyone interested in testing the PHP code they write for web applications.

From reader reviews:

Rose Villegas:

Information is provisions for people to get better life, information these days can get by anyone on everywhere. The information can be a knowledge or any news even restricted. What people must be consider while those information which is from the former life are challenging be find than now is taking seriously which one would work to believe or which one typically the resource are convinced. If you have the unstable resource then you buy it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take PHPUnit Pocket Guide as your daily resource information.

George Lehman:

The book untitled PHPUnit Pocket Guide contain a lot of information on the idea. The writer explains the woman idea with easy technique. The language is very simple to implement all the people, so do definitely not worry, you can easy to read the item. The book was published by famous author. The author brings you in the new period of literary works. You can read this book because you can read more your smart phone, or gadget, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can open up their official web-site and order it. Have a nice learn.

Raymond Albanese:

As a pupil exactly feel bored for you to reading. If their teacher requested them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's heart and soul or real their interest. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring along with can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this PHPUnit Pocket Guide can make you truly feel more interested to read.

Lena Garcia:

What is your hobby? Have you heard that will question when you got learners? We believe that that question was given by teacher to their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person just like reading or as reading through become their hobby. You have to know that reading is very important as well as book as to be the thing. Book is important thing to increase you knowledge, except your own teacher or lecturer. You discover good news or update with regards to something by book. Numerous books that can you go onto be your object. One of them is actually PHPUnit Pocket Guide.
